Range overview

The full Delta El Nile for Industry range at a glance — capacity, applications and the preform families detailed in the pages that follow.

66 production SKUs	54 preform references	12 closure formats	4 application families
9–668.5 g weight range	+35 production lines	88,660 MT / year	17+ export markets

Preform families

APPLICATION	NECK FINISHES	WEIGHT RANGE	REFS
Water	29/25 · 48 mm · 55 mm	9–668.5 g	21
Carbonated soft drinks	PCO 1881 · PCO 1810	13–53.6 g	19
Edible oil	29/21 · 42/36	17.6–84 g	7
Juice & milk	33/15 · 38 mm	11–32 g	7

Preform portfolio

54 SKU

The complete Delta El Nile for Industry preform range, grouped by application family. Container pack-out (units per 40ft) is computed from approved packing masters; jumbo-box and carton options are available on request. Net-weight tolerance is per Delta's banded spec (± 0.2 g for 9–19 g, ± 0.3 g for 19–35 g, ± 0.4 g for 35–49 g, $\approx \pm 1\%$ for heavier preforms) and is shown next to each weight. Resin IV and acetaldehyde (AA) targets are set by application.

Reading the table: *Weight* is net preform weight (g). *Neck finish* is the thread standard. *Length* is overall preform length. *Wall* is body wall thickness. *Units / 40ft* is the default-packing container quantity.
